

Experience the View

Vivid, big-screen images are a must, whether you are viewing a movie or a presentation, or enjoying some gaming. So the right projector makes all the difference. Choose from a variety of stylish and functional Sony projectors to fit your individual needs. From compact/portable to mobile to tabletop/installation models, all provide crystal-clear images and easy-to-use features, and options to suit a range of users - and budgets. The 3LCD technology employed by Sony projectors offers faithful reproduction of colors, uses light efficiently, generates less heat and costs less to run. Find the projector that will enable you to experience to the fullest, all the great views in your life.

Compact/Portable

Compact but Powerful

Suited for presentations, movies and gaming alike, the versatile and economical VPL-ES3 and VPL-EX3 accept a wide range of sources. And the remote allows control from almost anywhere in a room. With features such as excellent brightness, monitor-out to display an image on a second screen, auto setup, low fan noise and six preset-picture modes, you can achieve a powerful experience, complete with compact design.

Economical * Short-Projection Distance * Conference-Room Friendly * Multi-Purpose

VPL-ES3

Tabletop/Installation

Great Viewing in Large Rooms

With outstanding performance and flexible installation options, the VPL-CX61 is sure to impress. This projector offers low fan noise, a host of input connections, monitor output and Sony's "Off & Go" technology. Achieve superior-image quality in difficult light conditions, and project an 80-inch image from under 8 feet. The VPL-CX61 is perfect for conference rooms, classrooms and anywhere you need a reliable, versatile projector.

High Brightness & Picture Quality * Short Focal-Length Lens* Power Focus & Zoom

VPL-CX61

Weight/Dimensions: 8lbs 3oz/13 x 3 3/4 x 11 3/4"
Brightness: 2500 ANSI Lumens¹
Native Resolution: RGB: 1024 x 768 pixels

Mobile

Great Presentations To Go

Deliver presentations or entertainment with the confidence that setup is a snap. Features include rounded edges to enhance its portability, 3LCD technology and a powerful lamp for accurate image reproduction. Sony's "Off and Go" technology lets you just unplug and go, without worrying about lamp damage. The VPL-CS21 and VPL-CX21 prove you don't need a huge projector for great on-the-go presentations and entertainment.

High portability * Automatic Setup * High Brightness * Anti-theft Features

On the Go With Sony

VPL-CS21, VPL-CX21

You are on the move – giving your presentation to classroom after classroom. But the days of hauling a huge projector around – or waiting for someone to bring one over – are gone. With mobile models such as the Sony **VPL-CS21** and **VPL-CX21**, you can easily transport these lightweight projectors yourself. Weighing just over four pounds featuring rounded edges to make gripping easier, these models can fit into most book bags. And they are just what you need to effortlessly make presentations and keep your audience captive as you share your compelling content.

Ready, Set, Play

VPL-ES3, VPL-EX3

It's great to get together with friends and enjoy a night – or a whole day – of gaming. But when you are in deathmatch mode against your opponents, what you really need is a great picture, with the best resolution. Sony's line of portable/tabletop projectors are a great way to get super-sized images at an affordable cost. The compact **VPL-ES3** and **VPL-EX3** models throw high-definition 1080i and 720p images on your screen or white wall. Or integrate the projector into your media center and you are ready to watch a movie or conquer your opponent in a challenging game.

Presenting 101

VPL-CX61, VPL-CX76

Your student club is having its monthly council meeting and the pressure is on. With so many people listed on the agenda, and limited time, it's great to have a projector with the versatility of the **VPL-CX61** or the **VPL-CX76**. They offer the flexibility of floor, ceiling or rear installations, and are easy to set up. Plus you can present in a number of formats. And you'll be able to quickly switch from one person's presentation to the next, with the wireless capability and remote monitoring and control of the **VPL-CX76**. When you need a stress-free and easy way to present, rely on Sony projectors.
